DETERMINE OUR FUTURE.** SHARE YOUR VIEWS AND VISION FOR A  
COMMUNITY THAT WE CAN BE PROUD OF; WORKING TOWARDS  
SUSTAINABILITY, ECOLOGIC HEALTH, AND LOW IMPACT ON THE LAND ARE  
SOME OF THE GOALS WE WILL ADDRESS.

## **IMPORTANCE OF WATER regarding:**

**THE STATE OF OUR TWO WATERSHEDS** AND HOW OUR GEOGRAPHIC  
LOCALE IMPACTS DOWNSTREAM HABITAT AND WATER QUALITY FOR  
OURSELVES AND OTHER SPECIES.

**CREATING SUSTAINABILITY;** THE PAST, PRESENT AND FUTURE  
**IMPORTANCE OF CREEK HABITAT** EFFECT ON SALMON/BIRD VIABILITY

### **PRESENTERS:**

**MIA MONROE -SITE SUPERVISOR MUIR WOODS NATIONAL  
MONUMENT, GGNRA**

and what our influences are; including opportunities for  
involvement and recreation.

**NICK TIPON-COAST MIWOK, FEDERATED INDIANS OF GRATON  
RANCHERIA, SACRED SITES DIRECTOR**

Learn about the historic significance of our area to the Coast  
Miwok, true sustainability, important native plants and the  
sacredness of water to all creatures.

**TERRI FASHING-MARIN COUNTY STORMWATER POLLUTION  
PREVENTION PROGRAM (MCSTOPPP)**

Learn about creek impacts that cause downstream damage to the  
watershed and alternatives for positive mitigation.

**LAURA CHARITON- MILL VALLEY STREAMKEEPERS, HUTCHINS  
INSTITUTE. AND RIPARIAN RESTORATION POLICY ADVOCATE**

Learn about how we unintentionally degrade habitat and potential  
for restoration.

With the potential for sewers there is potential for increased  
development, water quality and habitat degradation. We can  
mitigate some of these concerns before they occur by being  
informed about what character and values we want our community  
to have. Your participation in addressing long term planning  
issues impacting all of us is vital. We have a special  
opportunity, now. Several watershed groups have formed across  
the county and are doing amazing work. **THE TIME FOR WATERSHED  
AWARENESS IS HERE.**

**CALL 388-7060 FOR INFORMATION, Volunteering and we need  
a digital projector for the evening.  
WE LOOK FORWARD TO SEEING YOU THERE**
